

3D PRO

Take suitable dimensions according to your own understanding to model any one of the given two models.

PROBLEM 1:

PROBLEM 2:

Keep the following guidelines in mind:

- The participant have to submit the CAD model by 5th Feb.
- Mail the Cad file with the screenshot/ rendering (.jpeg /.png) of the CAD model.
- You can use any CAD modelling softwares for the modelling.
(E.g. Solidworks, Catia, AutoCAD, Creo Parametric, Autodesk Inventor etc.)
- Submit your entries on 3d.pro.troika@gmail.com

All this seems difficult? Don't worry you can send us your best CAD model so far and you can get a direct entry into the final round.
